The Ministry of Health (MOH) would like to provide the public with the following updates on testing and quarantine of individuals in Palau:

- Sixty-three (63) residents and essential workers who arrived from Taiwan on November 13, 2020 received their day 7 tests yesterday, and all results were negative.
 - Per quarantine orders, fifty-nine (59) of these travelers who originated from Taiwan have been released from mandatory quarantine, and will continue to self-monitor for another week before undergoing final testing on day 14.
 - The other four (4) travelers who originated from Japan will remain under mandatory quarantine in a government-designated facility for another week. They will undergo testing on days 14 and 21.

MOH continues to thank the community for its support to all COVID-19 response activities.
